

HOW TO VOIP ON THE AIRLITE MIXER

You can use any software application which is able to call and route the audio to the input and output of the Airlite VOIP channel.

Below are some useful links:

<http://www.3cx.com/voip/voip-phone/>

<http://www.zoiper.com/en>

<http://www.voipsupply.com/blog/voip-insider/free-sip-softphone-roundup/>

(You can also use the well known application Skype for making calls)
